

Dear Title Professional:

On behalf of the Membership Committee of the Land Title Association of Colorado, I would like to invite you to join fellow title industry leaders and become an LTAC member. One of the Committee's ongoing goals is to increase LTAC participation among title professionals with substantial market share and community influence. We believe that you and your company are perfect candidates for this outreach project.

As the only trade association representing the interests of the land title industry in Colorado, LTAC has been on the frontlines of many Congressional battles. While it may not be readily apparent as you run your daily business, the work of LTAC has a substantial impact on your profitability and even your very survival. Here are a few examples:

- LTAC actively engages the members of the State Legislature on many issues regarding Real Estate, the settlement process and Title Insurance.
- LTAC ensured that banks that sell title insurance are subject to the same regulations as every other title agent.
- LTAC offers education opportunities through its LTAC School. The School offers varying topics to meet all your educational needs.
- LTAC sends a monthly newsletter to keep you up to date on issues that affect our industry.
- LTAC's annual convention is the defining land title industry event in Colorado. The convention is a complete package, bringing together members, exciting venues, informative sessions, and networking opportunities.
- LTAC provides a membership directory. The directory is a valuable resource for both member referrals and consumer business.

The Association consists of a wide variety of diverse individuals representing small and large title insurance companies and underwriters throughout Colorado.

The Association understands the special needs of companies like yours. In fact, one of the most interesting and valuable LTAC experiences you would have is the opportunity to attend the annual conference.

Help LTAC help you. Join today and become an active part of the industry's voice. Please feel free to call the association office at (800) 479-3089 with any questions you might have. I look forward to welcoming you to LTAC membership in the near future.

Sincerely,

Michael A. McBride

Michael A. McBride, Chair
Membership Committee
